

smart hosting. smart choice.

MaximumASP Corporate Fact Sheet

company

MaximumASP is based in Louisville, Kentucky and was founded in 2000 by three hosting industry veterans as an outsourcing firm for Microsoft Windows-based hosting services. The company currently hosts more than 44,000 domains for customers in over 60 countries.

MaximumASP provides comprehensive network protection, automated server patching, and advanced server monitoring for more than 1,500 servers.

With a strong focus on hosting solutions that combine advanced monitoring and management tools, MaximumASP has become a top choice for Microsoft developers seeking a robust hosting platform for mission-critical web applications.

management team

Wade Lewis – *Managing Partner, Operations*

Silas Boyle – *Managing Partner, Sales*

The management team brings a combined 22 years of experience in the hosting business to the day to day operations of MaximumASP. With industry experience ranging from consulting and software development to technical report authorship, the combined knowledge base of these individuals provides a dynamic and diverse leadership initiative to the company.

customers

MaximumASP customers are application developers, small to large web development companies, and Fortune 500 companies with web hosting needs. Many of these entities host and deliver software as a service to clients all over the world.

strategic partners

Our partners include leading computer software providers, equipment manufacturers, and solution providers such as Microsoft, Peak 10, Dell, Foundry Networks, Juniper, Tipping Point, and InMon, among others. MaximumASP is designated as a Microsoft Gold Certified Partner.
